

PHD-HM5 Firmware Upgrade Instructions

Firmware Ver. Flash.bin_1.7.0:

- (1) Make sure the USB Flash stick is larger than 128MB size.
- (2) Copy "upgrade.dat" and "flash.bin_x.x.x" both files into root directory of USB Flash stick.
- (3) Insert USB Flash stick to one USB port of PHD-HM5 and power on.
- (4) Select "SETUP" menu and navigate to "Software Version" section. Select "Upgrade" to upgrade firmware.
- (5) After detecting correct firmware, press "OK" key on remote control to confirm and proceed the upgrade.
- (6) Depending on "flash.bin_x.x.x" file size, it usually takes about several minutes to complete the firmware uploading.
- (7) PHD-HM5 will auto re-boot after completion.
